

April 22, 2026

To the Township Board of Trustees
Charter Township of Highland

We have audited the financial statements of the Charter Township of Highland (the "Township") as of and for the year ended December 31, 2025 and have issued our report thereon dated April 22, 2026. Professional standards require that we provide you with the following information related to our audit, which is divided into the following sections:

Section I - Required Communications with Those Charged with Governance

Section II - Legislative and Informational Items

Section I communicates significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process.

Section II contains updated legislative and information items that we believe will be of interest to you.

We would like to take this opportunity to thank the Township's staff for the cooperation and courtesy extended to us during our audit. Their assistance and professionalism are invaluable.

This report is intended solely for the use of the board of trustees and management of the Township and is not intended to be and should not be used by anyone other than these specified parties.

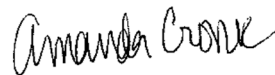

We welcome any questions you may have regarding the following communications, and we would be willing to discuss these or any other questions that you might have at your convenience.

Very truly yours,

Plante & Moran, PLLC

Pamela L. Hill, CPA

Amanda Cronk, CPA
Principal

Section I - Required Communications with Those Charged with Governance

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated July 17, 2025, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

As part of our audit, we considered the internal control of the Township. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on January 12, 2026.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Township are described in Note 1 to the financial statements.

No new accounting policies were adopted, and the application of existing policies was not changed during 2025. The Township did evaluate a new standard, GASB 102, *Certain Risk Disclosures*, and determined that it did not have an impact on the financial statement disclosures in the current year.

We noted no transactions entered into by the Township during the year for which there is a lack of authoritative guidance or consensus.

There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no significant balances, amounts, or disclosures in the financial statements based on sensitive management estimates.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

**Section I - Required Communications with Those Charged with Governance
(Continued)**

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Significant Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Township, and business plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Township's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated April 22, 2026.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Township's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Section II - Legislative and Informational Items

Cybersecurity and Information Technology Controls

Cyberattacks are on the rise across the globe, and the cost of these attacks is ever increasing. Because of these attacks, municipalities stand to lose their reputation, the ability to operate efficiently, and proprietary information or assets. Communities potentially can also be subject to financial and legal liabilities. Managing this issue is especially challenging because even a municipality with a highly mature cybersecurity risk management program still has a residual risk that a material cybersecurity breach could occur and not be detected in a timely manner. We understand that the Township's IT vendor continues to perform various services for the Township. However, monitoring and evaluating this risk are critical best practices. Additionally, periodic assessment of the system in order to verify that the control environment is working as intended is a key part of measuring associated business risk. We encourage administration and those charged with governance to work with their vendor on this very important topic. If we can be of assistance in the process, we would be happy to do so.

OMB Revisions to the Uniform Guidance

In April 2024, the Office of Management and Budget (OMB) released revisions for the Uniform Guidance for federal grants and agreements, which are effective for fiscal year ends beginning on October 1, 2024 and after. The guidance clarifies the applicability of requirements and terminology and includes some relaxation and clarification of certain requirements that required prior approval from federal regulators. A few key changes include the following:

- Increase the single audit threshold to \$1 million from \$750,000
- Require the schedule of expenditures of federal awards (SEFA) to identify recipient of federal award for audits that cover multiple recipients
- Increase the *de minimis* indirect cost rate from 10 percent to 15 percent, effective for grants received on October 1, 2024 and after

The changes are included in more detail within the federal register at <https://www.federalregister.gov/documents/2024/04/22/2024-07496/guidance-for-federal-financial-assistance>, and we are happy to discuss these changes with you.

Other New Legislation

Upcoming Accounting Standards Requiring Preparation

We actively monitor new Governmental Accounting Standards Board (GASB) standards and due process documents and provide periodic updates to help you understand how the latest financial reporting developments will impact the Township. In addition to the summaries below and to stay up to date, Plante & Moran, PLLC issues a biannual GASB accounting standard update. The most recent update and a link to previous fall and spring updates are available [here](#).

Section II - Legislative and Informational Items (Continued)

GASB Statement No. 103 - Financial Reporting Model Improvements

This new accounting pronouncement will be effective for fiscal years ending June 30, 2026 and after. This statement establishes new accounting and financial reporting requirements, or modifies existing requirements, related to the following: management's discussion and analysis (MD&A); unusual or infrequent items; presentation of the proprietary fund statement of revenue, expenses, and changes in fund net position; information about major component units in basic financial statements; budgetary comparison information; and financial trends information in the statistical section. This statement requires that the MD&A be limited to the five topics noted in the standard and provides further guidance on how the MD&A should be written. For proprietary fund financial reporting, the statement defines nonoperating revenue and expense and introduces the concept of subsidies. It also requires new subtotals to present total noncapital subsidies and income or loss, including both operating activities and noncapital subsidies. The statement prescribes that the required budgetary comparison schedules be reported only in the required supplementary information section of the statements and dictates what variance information should be included. Next, the statement removes the option to present discretely presented component unit information as condensed information in the notes rather than in the statements. Lastly, the statement outlines how unusual or infrequent items should be presented separately on the financial statements.

GASB Statement No. 104 - Disclosure of Certain Capital Assets

This new accounting pronouncement requires certain types of capital assets, such as lease assets, intangible right-of-use assets, subscription assets, and other intangible assets, to be disclosed separately by major class of underlying asset in the capital assets note. The statement also requires additional disclosures for capital assets held for sale.

GASB Statement No. 105 - Subsequent Events

This new accounting pronouncement will be effective for the Township's fiscal year ending September 30, 2027. This statement defines subsequent events as transactions or other events that occur after the date of the financial statements but before the date the financial statements are available to be issued. This statement clarifies the subsequent events that constitute recognized and nonrecognized events and establishes specific note disclosure requirements for nonrecognized events.

Significant GASB Proposal Worth Watching

The Revenue and Expense Recognition project aims to develop a comprehensive accounting and financial reporting model for transactions that result in revenue and expenses. The GASB has issued a preliminary views document that proposes a new categorization framework that replaces the exchange/nonexchange transaction notion with a four-step categorization process for classifying a transaction. In addition to this new framework, the proposal also addresses recognition and measurement of revenue and expense transactions. The exposure draft for this project is expected in two phases - one in early 2027 and another in 2028.

Plante & Moran, PLLC has spent significant time digesting this new proposed standard and testified to the GASB about our feedback. We strongly encourage the Township to monitor developments with this standard, as the potential impact is quite broad.
